

# Be aware, Be self-reliant

## Survey results

SHE week May 13-17, 2019

1681 campus residents received the SHE survey

148 campus residents filled in the SHE survey = **8.8 %**

### Percentage answered per survey question

#### Question 1

A siren alarm is given on Campus and Gate 2 is closed. You are on your way towards the Campus. What do you do?

##### The correct answer

You follow the yellow diversions signs and you wait outside the Chemelot Site until the end of the siren alarm is given.

##### Results Question 1

##### Comment SHE

Do not put yourself at unnecessary risk by stopping next to the road, with closed windows and the ventilation of your car shut down. You are blocking the road for the professional help to assist during the siren alarm. For your own safety, drive away from the Campus via the diversion signs and wait outside the Chemelot site until the end of the siren alarm is given.

#### Question 3

You walk on Campus grounds and you smell a strong ammonia odor. What do you do first?

##### The correct answer

You walk towards the nearest building with a reasonably airtight room (RDR) and you shut down the ventilation inside the RDR.

##### Results Question 3

##### 69.6% thought the answer was:

You call the alarm number +31 46 47 66666 and you report the ammonia cloud.

##### Comment SHE

Your own safety always comes first! First go, as fast as possible, to the nearest building with a RDR and the ventilation in this building shut down. Once this is done you call the alarm number +31 46 47 66666 to report the ammonia cloud.

#### Question 5

The building where you work is being evacuated. What do you do?

##### The correct answer

You leave the building via the fastest and safest evacuation route and you go to the assembly point you hear over the public announcement system..

##### Results Question 5

##### Comment SHE

Do not put yourself at unnecessary risk by collecting your personal things. In case of an evacuation of the building, leave the building via the fastest and safest evacuation route. Use the emergency staircases and go to the assembly point that is broadcasted on the public announcement system. The emergency staircases on Campus have a fire resistance of 60 minutes.

#### Question 7

You walk by the bus stop nearby the entrances at Gate 2. You see someone is smoking a cigarette. What do you do?

##### The correct answer

You address the person in question whether he is aware that he is not allowed to smoke on Campus grounds.

##### Results Question 7

##### Comment SHE

The campus is part of a chemical site where dangerous goods are handled. The campus is a non-smoking area which means that smoking is strictly forbidden everywhere. So, no smoking inside buildings and outside buildings. Not in parking areas and not in front of Gate 2. Signs at the campus access road indicate the non-smoking area limits. SHE-values: Act safely and responsibly and give feedback on unsafe behavior.

#### Question 9

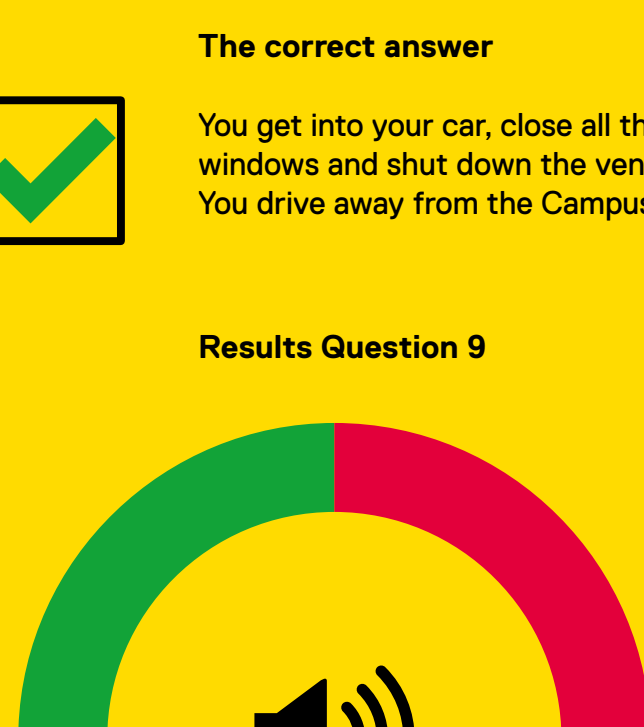

You are on your way home. At the parking you hear the siren alarm for the Campus. What do you do?

##### The correct answer

You get into your car, close all the windows and shut down the ventilation. You drive away from the Campus.

##### Results Question 9

##### 46% thought the answer was:

You leave the parking location to go to the nearest reasonably airtight room (RDR) inside a building.

##### Comment SHE

Your own safety always comes first! In case of a siren alarm you need to go as fast as possible to a RDR. Your car with closed windows and the ventilation shut down is also a RDR! The nearest RDR in this situation is your car.

#### Question 2

You are giving a presentation during an important meeting, an announcement message is broadcasted on the public announcement system. What do you do?

##### The correct answer

You interrupt your presentation so that everyone can listen to the announcement message that is broadcasted. Following the announcement message, you check with your colleagues whether one of them should take action, before you continue with your presentation.

##### Results Question 2

##### Comment SHE

When an announcement message is broadcasted on the public announcement system. Stop talking to each other so you can hear the message that is broadcasted. If the broadcasted message applies for you, follow the instructions via the public announcement system.

#### Question 4

In the morning you arrive in parking garage P8 and you see someone driving against the indicated driving direction in order to quickly obtain the last free parking space near the elevator. What do you do?

##### The correct answer

You address the person in question and ask if they are aware that a traffic violation is committed and that they endanger their own safety as well as others.

##### Results Question 4

##### 93.9% answered this question correctly!

##### Comment SHE

SHE-values: Give feedback on unsafe behavior, with respect for each other.

#### Question 6

A siren alarm for the Campus is given. You have been in the reasonably airtight room (RDR) for quite some time without knowing what is going on. What do you do?

##### The correct answer

You wait, limit your telephone traffic and listen carefully to the messages that are broadcasted over the public announcement system.

##### Results Question 6

##### Comment SHE

During a siren alarm on Campus, remain in the reasonably airtight room (RDR) until you hear the 'all clear' signal or a spoken announcement to that effect on the public announcement system. During a siren alarm, announcement messages about the status of the siren alarm are broadcasted. Stop talking to each other so you can hear the messages and minimize your telephone usage.

#### Question 8

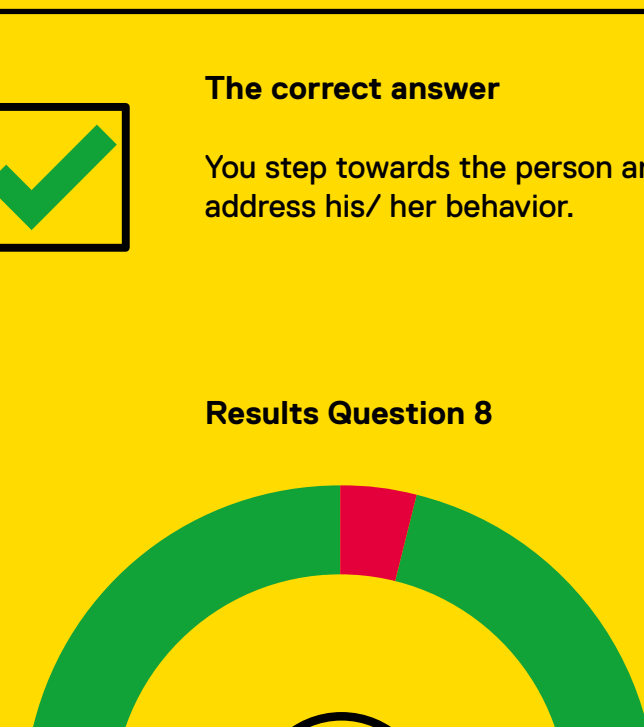

You are present in the Center Court building and you see a person performing a dangerous handling. What do you do?

##### The correct answer

You step towards the person and you address his/ her behavior.

##### Results Question 8

##### Comment SHE

SHE-values: Give feedback on unsafe behavior, with respect for each other.

#### Question 10

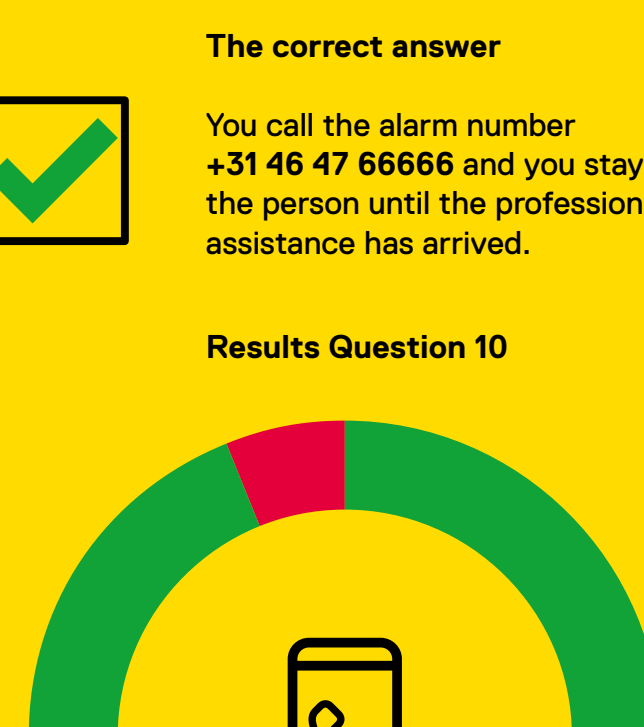

You are walking on Campus grounds and you see a person collapsing. What do you do?

##### The correct answer

You call the alarm number +31 46 47 66666 and you stay with the person until the professional assistance has arrived.

##### Results Question 10

##### 95.3% answered this question correctly!

##### Comment SHE

Do not call 112 when you are on Campus. The professional help, after calling 112, does not know the campus grounds and will arrive much later on location. The professional help from Chemelot that will arrive after calling the alarm number +31 46 47 66666, are on location within 6 minutes. This is much faster.
