## Brightlands Chemelot Campus offers a secure online platform for events or webinars.

All of the measures, travel restrictions and changing circumstances make it extremely difficult to organize an event in times like these. It's so important to remain in contact with each other, in spite of all this. Brightlands Chemelot Campus makes this possible with a new solution.

# How to organize a secure online event

Brightlands Chemelot Campus wants to make things easier for its campus residents. This includes organizing events; after all, meeting up and sharing knowledge and experiences is indispensable when you're working on sustainable innovation. This is why we are working with Houben Souren to offer an online event platform.

We provide the online platform, audio-visual technology and professional guidance. Security and quality come first.

What we offer:

- A very secure online platform.
- Visitor registration in advance.
- A unique code for each visitor to enable monitoring of who actually logs in and participates.
- Video and sound checks in advance.
- Remote support throughout the event.
- Use of your own corporate style.
- Personal attention so that we can translate objectives and preferences into an online custom event

Good to know: The IP remains the property of the event organizer!  
You can organize an online event starting at just **€950 excl. VAT\***.

Ask our Events Officer about the possibilities:  
[event.ccampus@brightlands.com](mailto:event.ccampus@brightlands.com)

\*Please note: this is a starting price. We will be happy to provide you with a customized quote.
