

The sky is the Limit?

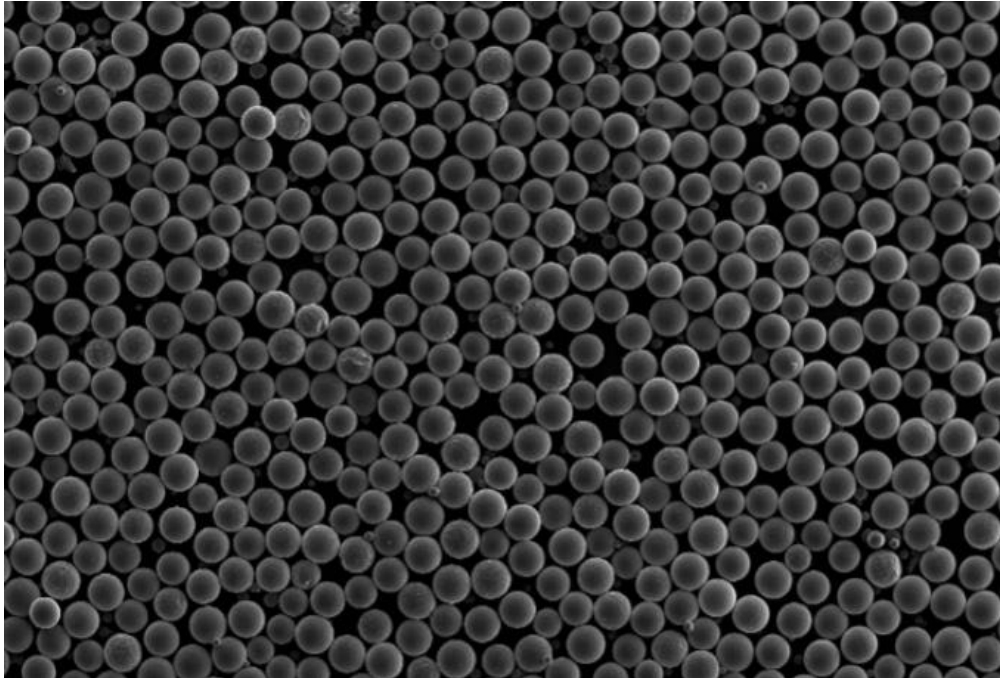

topolog³

Transform metal waste
into elements for the future.

Materials.

Particle size distribution

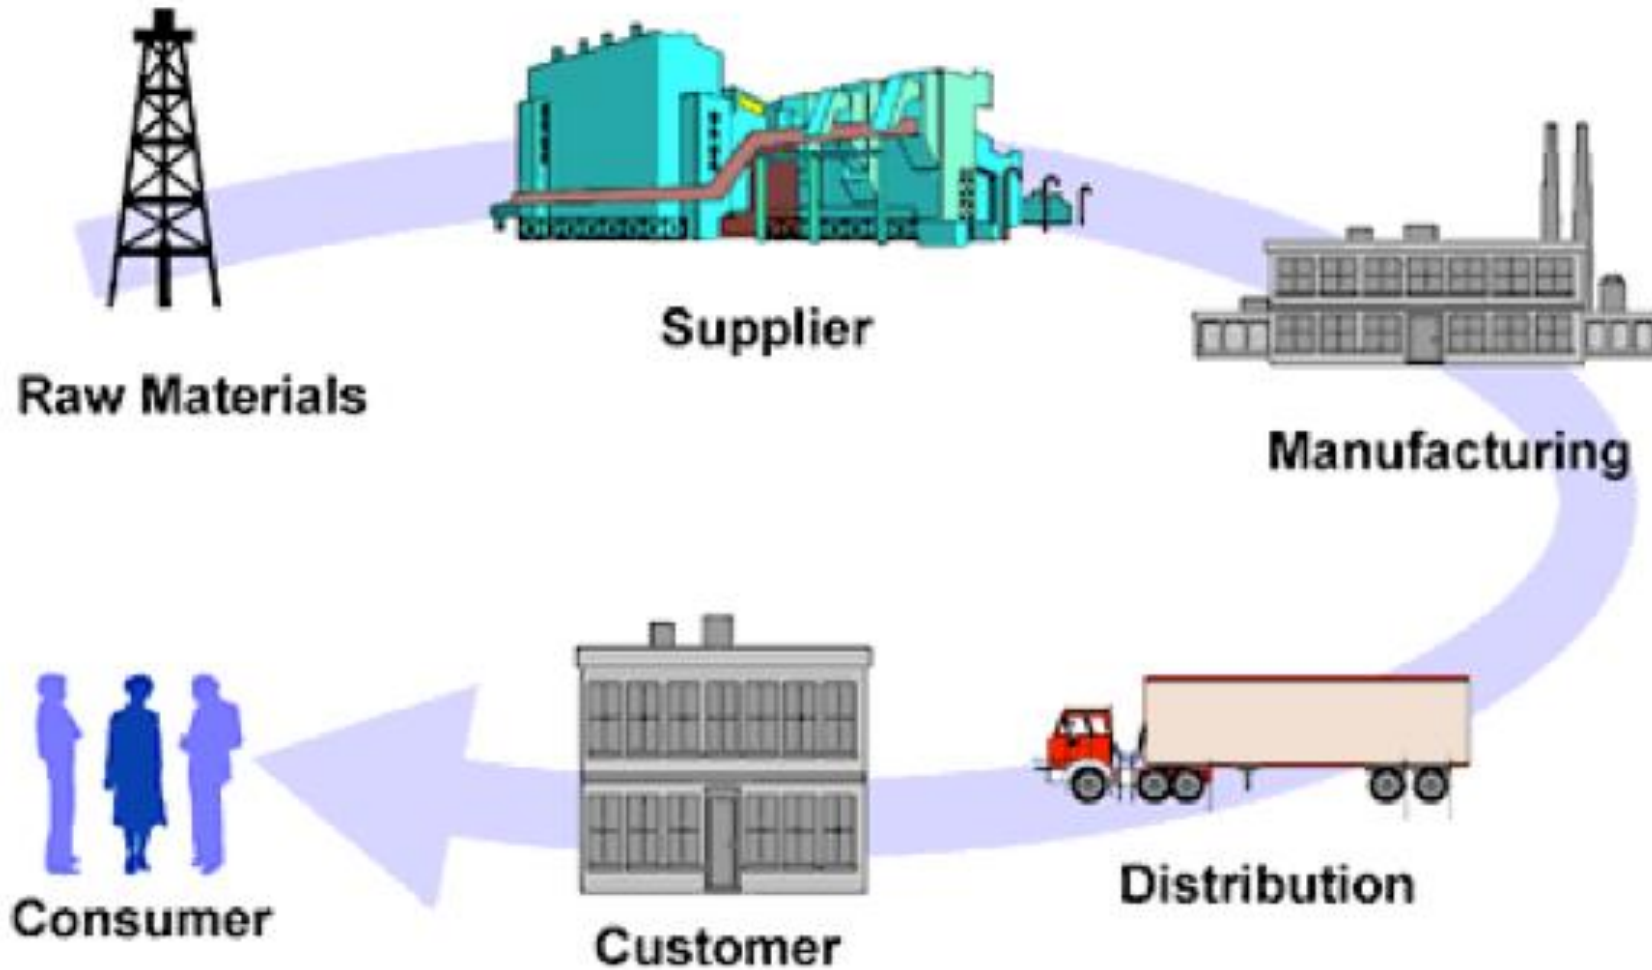

- Controlled spread of particle Size Distribution.
- Smaller parts to start the melt,
- Bigger parts to increase density.
- increasing laser scanning speed by optimum P.S.D.
- Reliable operation, higher throughput.

The Brightlands A.M. Center.

- Added value
- Proces-flow
- Cohesion

Introducing the supply-chain.

Where are the Limits?
